Lead and Review Committee Status Update: 2024 Audits

Lead and Review Committee Status Update: 2024 Audits

The Legislative Audit Subcommittee intends that with each audit it refers, legislative committees be designated to hear the audit and respond back to the Audit Subcommittee regarding the audit recommendations. For legislative recommendations, this can take the form of draft legislation, further deliberation or concluding sufficient action has taken place. For non-legislative recommendations, the Audit Subcommittee asks that as part of the committee's oversight role, they determine whether appropriate action is being taken to address the audit findings. (Audit Subcommittee). This report shows overwhelming compliance with the referral policy for audits to be heard. Note that highlights of action taken and legislation coming from audits in the 2025 General Session can be found in our General Session Impact report.

There were 26 audits released between January 2024 and December 2024. This report shows which legislative committees heard each audit between those interim dates and during General Session 2025, and subsequent 2025 interim dates. Of the 20 audits referred to committees, all but one has been heard by at least one legislative committee; many of which took significant legislative action. Six audits were not referred to committees because the audits were released outside of a scheduled Audit Subcommittee meeting with approval of the co-chairs.

- Note that committee hearings marked with an asterisk (*) in the below table denote the committee chairs sent a letter back to the Audit Subcommittee with a report on committee action.
